Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Correction of Inventorship under 37 CFR 1.48(b)

1. In view of the papers filed May 12, 2003, the inventorship in this nonprovisional application has been changed by the deletion of:

Seiji FUJITSUKA

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest exposing a first and second patterns (located on a mask) onto a substrate wherein when the first and second patterns are exposed along a synchronous moving direction of the substrate, a part of the first pattern

and a part of the second pattern overlap and are exposed, and a synchronous moving speed of the mask and the substrate when there is overlapping exposure is set different from a synchronous moving speed of the mask and substrate when there is no overlapping exposure as recited in independent claim 12.

The prior art of record does not disclose or suggest synchronously changing a size of the illumination region in a direction intersecting with the synchronous moving direction of the substrate during the synchronous movement of the mask and substrate at a time of exposure in order that a locus of an end of the illumination region on the substrate is extended in a direction different from the synchronous moving direction as recited in independent claims 14 and 16.

The prior art of record does not disclose or suggest that the illumination region setting device includes a pair of blind plates which respectively have openings with a predetermined width in the synchronous moving direction and are movable in a direction that is different from the synchronous moving direction in combination with the other elements recited in independent claim 17.

The prior art of record does not disclose or suggest that the ends of the illumination region are exposed to an illumination gradient in combination with the other elements recited in independent claim 20.

Art Unit: 2851

The prior art of record does not disclose or suggest an illumination region setting device which sets an illumination region of the mask and a changing device which changes a size of the illumination region in a direction different from a synchronous moving direction of the substrate during synchronous movement and where ends of the illumination region are exposed to an illumination gradient as recited in independent claim 20.

The prior art of record does not disclose or suggest the size of the illumination region in a direction intersecting with a synchronous moving direction of the substrate is synchronously changed during synchronous movement, and wherein an overlapping part which is partially overlapped with the pattern is formed in a zigzag pattern as recited in independent claim 25.

The prior art of record does not disclose or suggest moving the illumination region in a direction intersecting with a synchronous moving direction of the substrate during synchronous movement at the time of exposure as recited in independent claim 31.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
